EDUCATION

Sri Siddhartha HIGH SCHOOL

TKR College of Engineering & Technology, Hyderabad

Diploma in Electrical and Electronics Engineering (EEE)

WORK EXPERIENCE

Front End Developer | Infinityking pvt. ltd | Hyderabad |

Oct 2021 – Dec 2023

Full stack Development | wgs software solutions pvt .ltd |
Hyderabad |

Jan 2024 – October 2024

Responsibilities:

- Developed and implemented innovative and visually appealing web designs using HTML and CSS styling, improving user experience and increasing website traffic.
- Utilized TypeScript and JavaScript to create dynamic and interactive web applications, enhancing functionality and user engagement.
- Demonstrated strong debugging skills to identify and resolve issues, ensuring seamless performance and minimal downtime.
- Collaborated with cross-functional teams to design and implement complex features, leveraging React.js and Redux.js frameworks.
- Created reusable code components to optimize web performance and streamline development processes, resulting in faster load times conducted thorough testing and quality assurance to ensure the

SKILLS

- ♦ HTML 5
- ♦ CSS3
- ♦ JQUERY
- ♦ JAVASCRIPT
- ♦ MongoDB
- ♦ NODE.JS
- ♦ PHOTOSHOP
- ♦ AWS CLOUD
- ♦ PHP Developer
- ♦ BOOTSTRAP
- ♦ REACT JS
- ♦ Software Development

delivery of high-quality, bug-free web applications.

Summary:

With over 3 years of experience in web development, full stack developer, I am proficient in creating innovative and interactive web designs using HTML and CSS styling. My skill set includes JavaScript, and debugging techniques, enabling me to develop dynamic and responsive web applications. I have a solid understanding of React.js and Redux.js frameworks, allowing me to build efficient and scalable software solutions. Additionally, I am adept at crafting reusable code to optimize web performance, ensuring a seamless user experience.

PROJECTS

Calculator - App

Implemented a web-based calculator using JavaScript, HTML, and CSS, allowing users to perform various mathematical operations such as addition, subtraction, multiplication, etc. The application fetches data dynamically based on user input, enhancing functionality and user experience.

Tech Stack: JavaScript, jQuery, Bootstrap, HTML, and CSS.

Music- App

Implemented a web-based calculator using JavaScript, HTML, and CSS, allowing users to perform various mathematical operations such as addition, subtraction, multiplication, etc. The application fetches data dynamically based on user input, enhancing functionality and user experience.

Tech Stack: JavaScript, jQuery, Bootstrap, HTML, and CSS.

Movies - App

Developed a music application utilizing Node.js, Express, MongoDB, and React.js for data fetching, API integration, and building an interactive user interface. The application offers a functional interface where users can explore custom playlists and discover similar songs within the rap music genre. The project mimics the functionalities of an Android application, providing a seamless user experience.

Tech Stack: React.js, Node.js, Express, MongoDB

Food- App

Developed a food application that leverages Node.js, Express, MongoDB, and React.js to fetch data from APIs and integrate with various food sites. The project aims to provide users with a convenient for explore and order a wide range of food items,

English, Telugu, Hindi

Date :

Signature :

Tech Stack: Node.js, Express, MongoDB, API integration, React.js

Doctor application with patient and doctor communication :

Developed a doctor & patient application that leverages Node.js, Express, MongoDB, with authentication and authorization. Patient and doctor they communicate like video call application patient can book and appointment to so health issue that can doctor will join his meeting part

Tech Stack: Node.js, Express, MongoDB, API integration, etc

Chat bot system :

Developed a chat application when we are sent the some thing it generate the relate information and like latest update get and when you sent any voice part it recognition part it will get the text from the chatbot part

Tech Stack: Node.js, Express, MongoDB, API integration,sockets,etc
